New York, NY • zaynebcheriff@gmail.com • [linkedin.com/in/zayneb-cherif-830294251](https://www.linkedin.com/in/zayneb-cherif-830294251) • github.com/zcher-20 • zaynebcherif.vercel.app

EDUCATION

Columbia University — B.A. Computer Science & Design Expected May 2028 | New York, NY
Relevant coursework: Data Structures & Algorithms, Foundations of CS, Linear Algebra, Calculus III, Principles of Data Science

University of Oxford Aug 2026
AI and Machine Learning Summer Programme

EXPERIENCE

OpenAI Jun 2026 – Present
AI Model Trainer (Feather) • Part-time

- Training **Codex**, OpenAI's code-generation LLM — designing adversarial prompt sets that surface code correctness failures, edge case regressions, and instruction-following breakdowns; evaluating output quality against rigorous standards for Project Vox
- Building **systematic evaluation frameworks** to track model behavioral patterns across configurations, surfacing regressions and informing improvements to production code generation quality

MIT-Incubated Stealth Startup Jun 2026 – Present
Agentic AI & ML Intern

- Designed and deployed **RESTful FastAPI backend services** for document ingestion, chunking, and semantic search; implemented client-server API architecture with clean endpoint design and robust error handling
- Engineering an **AI agent for fintech applications** using LangChain orchestration — architecting multi-step reasoning workflows with tool-use logic and real-time data processing from end to end

IBM Research Sep 2023 – May 2024
AI Analytics Researcher

- Co-authored **2 peer-reviewed papers** (ICLR 2024, IJCAI 2024); findings directly informed production architecture decisions and hardware-software co-design at IBM Research
- Applied **data structures and algorithmic analysis** to benchmark ResNet and U-Net inference across 6 hardware configurations, quantifying latency-accuracy-memory tradeoffs at the hardware-software boundary

New York University Oct – Dec 2025
Data Analytics Research Intern

- Built **end-to-end data pipelines** in Python processing 500K+ records; applied statistical modeling and time-series decomposition to improve signal quality and downstream model performance

PROJECTS

AI Knowledge & Agent Management Platform 2026
Python • React • Node.js • OpenAI API • Google APIs • UI/UX Design

- Designed a complete UI/UX system in **Figma** then implemented it in React — building a full-stack AI platform with custom LLM API layer, multi-agent system, interactive knowledge graph, and AI-powered search, end-to-end from design to production

LLM-Powered Research Assistant 2026
React • Next.js • TypeScript • FastAPI • Anthropic API • Vercel

- Built and shipped a **full-stack LLM web application** — FastAPI backend with PDF ingestion, chunking, and vector retrieval; React/Next.js frontend streaming real-time citation-grounded responses via Anthropic API; deployed on Vercel

Multi-Agent Investment Research System 2026
Python • Azure AI Foundry • LangChain • Agentic AI

- Architected a **production 5-agent LLM pipeline** on Azure AI Foundry orchestrating Research, Financial Analysis, Risk, News, and Memo agents; designed clean API contracts, agent handoff logic, and output validation for reliable end-to-end production deployment

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, TypeScript, HTML/CSS

Frameworks & Tools: React, Next.js, Node.js, FastAPI, REST APIs, LangChain, Pandas, scikit-learn, PyTorch, Git/GitHub, Vercel

AI / ML: LLMs, RAG Pipelines, Agentic AI, Prompt Engineering, Multi-Agent Orchestration, Neural Networks, Model Evaluation, Algorithms

CERTIFICATIONS

AI Fluency Framework & Foundations — AI foundations, responsible AI, LLM frameworks Anthropic • Jun 2026

Microsoft AI Skills Fest — Azure AI, agentic systems, responsible AI Microsoft • Jun 2026

Google & Kaggle AI Agents Course — AI agent design, tool use, multi-agent orchestration Google / Kaggle • Jun 2026

LEADERSHIP & AWARDS

SEO Career Fellow (Tech/SWE) — **Columbia GS Business Society**, Director of Development • **IEEE Member** • **Girls Who Code** • 2026–Present

IEEE WISC 2026 Scholar • ICLR 2024 Award (Notable) • IBM/IEEE AICS 2023 • Genius Olympiad Finalist • WESEF Finalist
